

Proving Your Business Skills?

YES, with the Economics Olympiad for Students up to the Age of 19.

Economics Olympiad

An international competition for students up to the age of 19.

The **Economics Olympiad** is part of the Science Olympiad and is organised annually. Students up to the age of 19 from all over Switzerland compete against each other. The most talented students are then selected to represent Switzerland at the International Economics Olympiad (IEO). There, they have to prove themselves in the fields of finance, business administration and economics.

How to participate:

- Create a class on **Olyportal** and share the link. Students register on their own. You can view their participation and results.
- The 45-minute online exam can be taken in class or independently.
- Sit back and relax – we'll take care of everything else!

Benefits of the Programme:

- ✓ Develop business skills and prove yourself in friendly competition
- ✓ Enhance your resume for college and your career
- ✓ Build relationships with practice partners and people who share your interests

Costs: Participation and all documents are free of charge!
