

# Ready for the World of Work?

**YES, with Personal Economics  
for the secondary level I.**

# Personal Economics

**Practising with experts from the world of work.**

Practise a realistic **job interview**, create a **personal budget** and learn more about the **economic cycle** and **sustainable consumption**!

With **Personal Economics**, young people in the secondary level I learn these important skills through practical exercises with a professional from the world of work. The programme consists of three modules that can be chosen and combined flexibly.

## What you can expect from YES:

- Provision of teaching materials and practical examples
- Support in implementing the programme
- Competent, trained volunteers from the world of work

## Benefits of the programme:

- ✓ Practical advice and tips from professionals
- ✓ Includes learning objectives from the secondary school curriculum
- ✓ Young people are optimally prepared for working life and adult life.

### Participation to the programme

The teacher registers a class and YES provides a suitable volunteer from the world of work

### Flexible planification

The teacher will work with the volunteer to determine the appropriate dates and content

### Teaching material

YES sends all the necessary materials to the class and to the volunteer

### Implementation of the programme

The class discusses the topics of the desired module together with the volunteer

Free selection and combination of modules:

### Basic Principles of Economics

Economic cycle, price formation, globalisation, sustainability

### Money Management

Budget planning, pensions, insurance, debt prevention, world of finance

### Job Application Process

Job market, self-awareness, job applications portfolio, job interviews

Shape your future!

yes.swiss

**Costs:** participation and all the teaching materials are free of charge.
